

# Clemco Abrasive Blast Systems

are also available for Industrial In-plant Applications . . .  
again matched to the job.

## The Complete Clemco Facility

Clemco enjoys a world-wide reputation for expertise in design and construction of industrial blast facilities. All the parts are engineered and built to work together, resulting in a balanced system with no compatibility problems. After the facility is operational, managers can count on a reliable, single source for everything to maintain the system. Custom units have been installed throughout the world. Clemco was the first company to market a low-profile "pitless" mechanical recovery system.

## A Word About Clemco . . .

Established in 1941, the company's administrative headquarters is in San Francisco. Products are manufactured and assembled in the United States, Germany, Denmark, Australia, Singapore, Spain, South Africa, England, Mexico and Brazil.

Product service is maintained throughout the world through a network of distributors in fifty-five countries assisted by strategically located district offices. As the acknowledged world leader in the Abrasive Blast Cleaning Industry, Clemco awaits the opportunity to assist you.
